

## CAMERA CAUGHT THIS SURF BELLE OFF GUARD

MISS FLEISCHMANN

Here's an unconventional view of a very conventional young society woman, Miss Fleischmann, one of the belles of Coronado beach and the daughter of the yeast magnate, Julius Fleischmann of Cincinnati, O.

It looks like a summer scene, but the picture was taken a few days ago for every day is summerlike at the California winter resort.

## PREPARE FOR FIGHT AGAINST PHONE COMBINE

"Our slogan: A telephone in every home at a penny a call," says the front page of printed statement on the automatic phone situation issued for campaign use by the Penny Phone league and 15 other organizations.

To let the Chicago Telephone Co. gobble the automatic system would be a surrender to the six men who now control all the public utilities of Chicago, it is pointed out, and there should be action taking the ownership of the automatic for the city.

Among the 16 organizations whose delegates sign the demand are the Woman's City club, the Political Equality league, Chicago Federation of Labor, Chicago Progressive club, Woman's Trade Union league, Woman's Party of Cook County, Public Affairs Commission, Single Tax club and Socialist and Prohibition parties.

On the right of the city to seize the automatic property, the statement says:

"The forfeiture clause in a franchise is the city's greatest protection from abuse by public service corporations. Shall we throw it away? Failure to enforce this clause in the automatic telephone ordinance renders the forfeiture clauses in similar franchises equally useless.

"The present corporation counsel was a member of the firm that represented the automatic company interests, even after he was appointed assistant corporation counsel for the city. Is he the proper person to represent the city in this matter if forfeiture proceedings are commenced? Are we justified in asking for the appointment of special counsel to protect our interests?

"Six men control all of the public utilities of Chicago? Are we willing to permit these six men now holding property belonging to the city by right of forfeiture to sell this property to the telephone trust for \$6,300,000 and put the proceeds in their own pockets? Are we, as citizens of Chicago, ready to surrender further rights to these six men by permitting the sale of the automatic telephone system?"

A simple test for watered milk is in general use in Germany. A well-polished knitting needle is dipped into a deep vessel of milk and immediately withdrawn in an upright position. If the sample is pure, some of the fluid will hang to the needle; but if water has been added, even in small proportion, the fluid will not adhere to the needle.
